CLEAN COAL

from the best mines, at greatly reduced rates

TERMS:—POSITIVELY CASH.

INDEPENDENT.

OATS.

BY JOSH BILLINGS.

Oats is a singular grain, perhaps I, should say plural, bekauze thare iz more than one ov them.

They gro on the top ov straw, about two foot 9 and one quarter inches hi, and the straw iz holler.

This straw iz interestin for its suckshun.

Short pieces of it, about 8 inches, or so, dipt into the buzzum ov a sherry cobler, will suckshun up the entire cobbler in 4 minits, bi the watch.

I never have tried this, but I kno lots ov young, and reliable men, who stand around ready to prove this, if sum boddy will fetch on the cobbler.

This suckshun iz sed to be a ded sure thing.

Oats gro on the summit ov sum straw, and are sharp at both ends.

They resemble shu pegs in looks, and build, and it iz sed are often mistaken for them by near sighted horses and shumakers.

I dont in.end this remark az any dero.ativeness to shumakers in the lump, for I hev often sed, in mi inspired moments, if I couldn't be a shumaker, I would like to be a good lawyer.

Oats are a punny grain, 8 quarts ov them will make even a stage hoss laff, and when a stage hoss laffs; you may kno he iz tickled somewhare.

This iz the nature ov oats az a beverage, they amuse the stummuck ov the hoss with their sharp ends and then the hoss laffs.

I hav never saw a hoss laff, but I hav heard that it could be did.

Thare iz a grate menny folks, ov good moral character, who wont believe enny thing unless they kan see it, theze kind of folks are always the eazyest to cheat.

They wont believe a rattle snaiks bite iz poison until they try it; this kind ov informashun alwus kosts more than it iz actually worth.

It iz a middling wise man who profits bi hiz own experience, but it iz a good deal wizer one, who lets the rattle snaik bite the other phellow.

The Goddess ov korn iz also the Goddess ov oats, and barley, and buckwheat.

Her name iz Serics, and she iz a mithological woman, and like menny wimmen now a days, she iz hard tew lokate.

These mithology men and wimmen, work well enough in poetry, whare a good deal ov being don't hurt the sense, but when you kum right down to korn in the ear, or oats in the bundle, all the Gods and Goddesses in the world, kant warrant a good krop.

It takes labor to raise oats, and thrash them out, but ov all the lazy kusses that hav pestered the earth since Adam was a boy, the Gods and the Goddesses, hav always been too lazy to swet.

Enny being who aint never swet, don't kno what he iz worth.

I would like to see a whole parcel ov theze Gods and Goddesses, in a harvest field, reaping lodged oats, in the month of August; they couldn't earn their pepper sass.

Oats are sold bi weight or mezzure, and are seldom (or perhaps I may say in confidence never) bi kount.

Eggs, and money, are counted out but oats never.

It would be well for new beginners to remember this, it would save them a good deal ov time on every bushel ov oats.

Time iz sed tew be the same az money, if this iz positively so, Methuseler died ritch.

Methuseler was exackly 9999 years old when he died, now multiply this bi 365 which would only be allowing him a dollar a day for hiz time, and yu will find just what he was worth.

Oats are worth from 40 to 75 cents a bushel, ackording to their price, and aint good for mutch, only tew tickle a hoss.

They will choke a goose to death quicker than a paper of pins, and ennything that will choke a goose to death (I mene on the internal side of their throat) iz, to say the least, very skarse.

Speaking of a goose, I hav found out at last what makes them so tuff, it iz staying out so mutch in the cold.

I found this out all alone bi myself.

Oats are a very easy crop to raise.

All you hav got to do, to raise oats, iz to plow the ground deep, then manure it well, then sprinkle the oats all over the ground, one in a place, then worry the ground with a drag all over, then set up nites to keep the chickens and ground hogs out ov them, pray for some rain, then kradle them down with a kradle, then rake them together with a rake, then bind them up with a band, then stack them up with a stack, then thrash them out with a thrasher, then clean them up with a mill, then sharpen both ends ov them with a knife, then stow them away in a granery, then spend wet days and Sundays, trapping for rats and mice.

It aint nothing but phun to raise oats—try it.

One of the best ways tew raise a sure crop ov oats, and tew get a good price for the crop, iz tew feed 4 quarts ov them to a shanghi rooster, then murder the rooster suddenly, and sell him for 25 cents a pound, crop and all.

MAN'S LABOR.

"No man ever managed a legitimate business in this life, that he is not doing a thousand-fold more for other men than he is in trying to do even for himself."

What truthful trueism is uttered in the above sentence, yet how few realize the fact that each man and woman engaged in a legitimate business is thereby doing others more good than him or herself. Let us carry this maxim into the affairs of every day life and see how far it will hold good. Take the farmer, from whose labor, it is said, all wealth comes, and we find him as selfish as most men—he labors early and late, long and hard, for the the support of himself and family. All of his surplus crops, over and above what he needs for his own consumption, he takes to market, where he finds a ready sale. And herein can be seen the manner in which he benefits others more than himself. In consequence of his labor, towns and cities grow up, thousands of men are engaged in handling his production—ships and vessels are constructed to carry his millions of bushels of grain and his pork and beef to other states and countries, and bringing in return other productions of man's skill and labor.

Take the printer of your own newspaper, and tell me if he labors fewer hours in the twenty four than the farmer or any mechanic—and who is the most benefited, the reader or himself? Most assuredly those who read his paper. What would have been our condition at this time but for type, ink and paper? The question is easily answered—we should be in the same benighted darkness in which our ancesters were long ages ago. No art yet discovered has blessed man, added to his happiness and knowledge as has the art of printing. It has been truly said it is the "art preservatve of all arts." A town, city, and country is judged of by the neatness and ability of its papers, and no laborer has a more wearisome task to execute satisfactorily than the editor and printer; and as to those who receive the benefit os his labors, the reader cannot be mistaken in seeing that his dividend on the balance sheet is far greater than he who racks his brain and locks the type in their places, to send the news abroad.

The teacher—see how he applies his task week after week, year in and year out, while the scholar is a thousandfold the gainer. The educated man or boy, at this day and age, has a rugged path along life's fitful journey; and thus the people, through their representatives, have provided that the children of the poor as well as the rich may be suitably educated and made good members of society.

The mariner risks his life on mid-ocean for a pittance barely sufficient to maintain life and clothe his body, while the people of all nations are luxuriously enjoying the fruits of his labor.

Thus it is, no matter what vocation we follow, we are sure to do good to others if we benefit ourselves. And the more firmly we hold, or the more steady we drive, the more widely is our influence extended, and the greater is ours and others reward. So let us never refrain from doing a good action lest others share with us, for every day and hour we live, somebody, somewhere, is laboring not only for his own but for our benefit.

THE SIGNAL SERVICE BUREAU.

The military system is one of the most strikingly beautiful and valuable features in the constitution of this Signal Service for the benefit of commerce. The advantages of having the whole corps of weather observers in the army are manifest and manifold. Each observer feels the responsibility of a sentinal at his post, which begets in him a sentiment of devotion to duty the strongest of which men are capable, and which has often led the soldier to imitate the example of the Roman guard at Pompeii, who, after nearly eighteen centuries, was taken from its ruins in his martial position, showing that he had not fled before the molten flood from Vesuvius. Experience has proved, what the sense of the government originally suggested, that observations would be most punctually and scrupulously taken at the different stations by men accustomed to the discipline and obedience, even in the minutest details, of army subaltems.

They are required to work out on difficult problems in meteorology, but simply to observe and record the indications of their instruments, and to transmit the same without delay or inaccuracy. In doing this work, they become by tridaily practice as expert and exact in reading the glasses as any of our veteran scientific men—indeed, as much so as a Fitzroy or a Leverrier could be.

Regarding the Signal Corps, scattered through and over all parts of the country, we may compare it to a regiment on drill three times a day, the telegraph instantly revealing to the commanding officer, General Albert J. Myer, at Washington, the slightest failure in any observer.

By this now widely spread and magnificently organized system the United States army, engaged under the chief signal officer, is in time of peace undergoing a thorough training in the art of telegraphy and signaling, at the same time that it is passing through a most thorough discipline, is being educated to science, and also serving one of the most important ends ever devised for the benefit of commerce.

At Fort Whipple, Virginia, every man is taught to use the telegraph, and to become a skillful operator. He thus has a profession at all times lucrative to himself wherever he may afterward be thown. The training, skill, and habits of exactness acquired by the Signal Corps in time of peace will be of the greatest value to the army in time of war. The telegraph is capable of indefinite utilization. General Von Moltke, it is well known, conducted the late operations of the German army on the battlefield of France sitting in the rear with his map before him, and his telegraphic operator at his side, keeping him in communication with all parts of the field. It has been frequently said by distinguished military men that the telegraph will be one of the most effective weapons in any war that may now occur. How necessary for the government to keep up the efficiency of such a corps as that of which we have spoken.—From "The Telegraph and Storm," by Prof. T. B. Maury, in *Harper's Magazine for August.*

CUNDURANGO.

Our readers may or may not have noted that, in the ever proceeding warfare between the Medical schools characterized as regular and irregular respectively, we decline generally to take the side of the irregulars, heretics, new-lights—in short the quacks. Doubtless, each school blunders, botches, injures and kills, pretending to know more than it ever did know; but we cannot forget the circulation of the blood, vaccination, &c., were originally stigmatized as quackeries, while bleeding, calomel, and denying cold water and fresh air to feverstricken sufferers, were regular within our remembrance. We have n't a doubt that Galen and Æsculapius, if half as able and successful as tradition reports them, were regarded by the old fogies of their day as quacks—brilliant, dashing fellows, but unsafe.

We know very little of Cundurando, the new cure-all for Cancer; but the fact that "the Washington city Medical Society" has pronounced it prepossesses it in our favor. That society will not fellowship Dr. Augusta, because he is a nigger, and cant abide Dr. Cox, because he consults with Homeopaths, and is now after Dr. Bliss for the latter reason, and is going for him again because he professes faith in Cundurango, and has sent his partner to a barely accessible portion of South America to procure a supply of the specific. They appear to have tried it on a patient nearly dead with cancer, and he died—wherefore, they will have none of it! How would they abide a kindred ordeal? We advise no one to buy and use Cundurango; we presume the people will die of cancer in 1900 as they did in 1809; yet we cannot doubt that Cundurango has helped some sufferers by cancer; and the fact that it is endorsed by the 'regular' faculty of Ecuador shall not impel us to refuse it the fair trial it seeks. Whenever Cundurango shall have become attainable at any reasonable price, we shall hope to hear that sufferers by cancer are giving it a fair trial, and are prepared to set forth the truth respecting its merits as their experience shall reveal it.—*Tribune.*

LET WELL ENOUGH ALONE.

Is there a young man or woman in the country who is impatient to have a comfortable home, kind and true friends, or means of gaining a livelihood—to travel to the city in quest of grander opportunities—some place where their love of display and excitment can be gratified, instead of plodding along in the seclusion of the country?

We would say to him or her, do not come with too sanguine hopes of success. Good situations do not go a begging, and coming without money or friends in search of work is oft attended with sufferings in mind and body.

In the great, blustering city nobody cares what becomes of one stranger, and you might walk from morning till night and scarcely receive a kind word of encouragement. People are intent upon their own pursuits, and have so many applications for work and help for the needy, that the addition of one more to the number of suffering ones is not felt by anybody. Not that everybody in town is selfish and uncharitable.

Many a kind hearted man or woman would give you money for the night, or to buy something to eat; but you are no begger—you ask for work and are to proud to receive charity. They have no work for you, and perhaps you may go hungry many a day before you find a place, and then, in desperation, accept a situation you would be to proud to take in the country.

Working on a farm is much easier than the life of a city clerk, who must work twelve, fourteen and often sixteen hours a day, in close dark rooms, year in and year out, always the same drugging life.

You long to see life! Stay where you are, even if you imagine yourself very miserable. Such misery is joy compared to the struggles, privations, desperations and crimes which wear and weigh upon the darkened spirits of the multitudes who have come before you.

You might succeed, be very happy, and make a great fortune; but, dependent upon your own efforts, all alone, unaided by the counsel of kind parents and companionship of friends, the chances are decidedly against you.—*Elm Orlon.*

TOMATOES AS FOOD

It is known that the essence of the tomato, made into a pill, acts upon the liver, and to that extent must counteract biliousness and all forms of fever. The free use of figs is known to multitudes to obviate constipation, in a great many cases; every intelligent druggist knows that a tablespoonful of white mustard seed, swallowed without chewing, is useful in the same direction, has been used in that direction for a century, and for that reason is kept in every good drug store for sale. The seeds pass through the body unchanged, but are supposed to act on the bowels mechanically. The seeds of the delightful tomato act in the same manner; hence the fruit, while it is palatable to the taste, and nutritious to the body, has a health promoting effect on the liver and the whole digestive system; and yet, loose statement is made in some of the papers that tomatoes are unhealthful. For they can cause salivation. Proof: A young lady lost all her teeth from the excessive use of tomatoes. The writer was salivated many times in youth, and yet, few persons of his age have sounder teeth, and more of them.

A young girl, two years ago, in Pennsylvania, from the excessive use of ice-cream, the fourteenth saucerful on the same evening, did not exactly lose her teeth, but she lost her life. Gen. Taylor, while president of the United States, lost his life by eating one more saucerful of strawberries and cream. Many a man has died of a surfeit of roast beef.

If an article of food so delicious, so cheap, so abundant as the tomato is to be banished from the table because once in a century, and once in a million cases, its excessive use killed somebody, we shall soon have nothing to eat. The newspaper press owes it to the public and its own intelligence to keep such palpably loose statements out of its columns. This slapdash kind of a way which some writers have, regardless of common sense, ought to be universally discountenanced by gentlemen of the press.—Hall's Jour. of Health.

"NO MORE JACOBS."

"The best laid schemes o' mice an' man,
Gang aft a gley,
An' let's us nought but grief and pain;
For promis'd joy."

A good story about sermons is told by John Miller Ross, formerly of Edinburgh, now pastor of the Chalmer's Presbyterian Church, Manchester, England. The pastor of a large Edinburgh church, being unexpectedly called away for three Sabbaths, was unable to do better than engage, as his supply, a young student from the university. Knowing the high standard of his people, and fearing the weakness of the student, he told him that he had laid upon his study table three of his own earlier sermons, never preached to that people, and that he was welcome to make any use of them he please l.

On the first Sabbath morning, the young minister looked the sermons over and being much belighted with one on the text, "Jacob was a plain man, dwelling in tents," Gen. xxv: 27, resolved, in accordance with the hopes of the absent pastor, to preach it instead of his own. The people were much delighted, and not a little surprised, to get such good feed from the young minister, who leaving the sermon where he found it, went his way to return, as he supposed, and take another from the same pile the next Sabbath. Alas! as Scotland's Burns bemoans, at the head of this article, so did it befall our young Scotlander, who, being sick was in his turn obliged to procure a substitute, to whom he forgot to mention the three sermons. They, however, attracted the eye, and won the careful perusal of the second supply, who unconsciously acquiescing the wise judgement of his predecessor, announced to an appreciative audience the text, 'Jacob was a plain man, dwelling in tents.' Quite pleased with the sensation which he perceived he had made, the young men replaced the sermon and departed. Yet another substitute, on the third Sabbath, following in the footsteps of those who had gone before, again proclaimed his subject, 'Jacob was a plain man, dwelling ——,' when he was silenced by an old woman, who rose near the desk, exclaiming in the broadest Scotch:

'Awa with your Jacobs; we'll ha no more of 'yr Jacobs!'—*Congregationalist.*

It is not generally known that a few scraps of iron will prevent the bad odor from forming in water, left to stand for days and weeks. The metal removes the free oxygen from the water, and thus prevents the oxidation of the organic matter that may be in the water. A better agent for rendering river water sweet and healthy is to employ chloride of iron. A very small quantity suffices to throw down the organic matter and thus to purify the water. There are few disinfectants so valuable as the chloride and and sulphate of iron, and they ought to be kept about every household. They are equally important to stop bad cases of bleeding from the nose or from cuts.

ANECDOTES OF RUFUS CHOATE.

Rufus Choate, and Chief Justice Shaw, of Massachusetts, often indulged in wordy combats, and wit was generally freely exchanged on both sides. Choate was once arguing a case before the chief justice (who was one of the homeliest men ever elevated to the bench), and to express his reverence for the conceded ability of the judge, said, in yielding to an adverse decision:

'In coming into the presence of your honor, I experience the same feelings the Hindoo does when he bows before his idol. I know that you are ugly but I feel that you are great!'

It is said that Choate had a command of language, and his brain teemed with a wealth of diction that was truly marvelous. When Judge Shaw first heard that there was a new edition of Worcester's dictionary containing 2,500 new words, he exclaimed, 'For heaven's sake, don't let Choate get hold of it.'

Choate, in an important assault and battery case at sea, had Dick Barton, chief mate of the clipper Challenge, on the stand, and badgered him so for about an hour that Dick got his salt water up, and hauled by the wind to bring the keen Boston lawyer under his batteries.

At the beginning of the testimony, Dick said the night was as dark as Egypt, and raining like seven bells.

Suddenly Mr. Choate asked him.

'Was there a moon that night?'

'Yes, sir.'

'Ah, yes! a moon—

'Did you see it?'

'Not a mite.'

'Then, how do you know there was a moon?'

'The Nautical Almanac said so, and I'll believe that sooner than any lawyer in the world.'

'What was the principal luminary that night, sir?'

'Binnacle lamp aboard the Challenge.'

'Ah! you are growing sharp, Mr. Barton.'

'What in blazes have you been grinding me for—to make me dull?'

'Be civil, sir. And now tell me what latitude and longitude you crossed the equator in?'

'Sho'—you're joking.'

'No, sir, I am in earnest and desire you to answer me.

'I shan't.'

'Ah! you refuse do you?'

'Yes—I can't.'

'Indeed! You are chief mate of a clipper ship and unable to answer so simple a question?'

'Yes, 'tis the simplest question I ever had asked me. Why I thought every fool of a lawyer knew that there ain't no latitude at the equator.'

That shot floored Rufus.

A burn caused by the explosion of gunpowder generally seems much worse than it really is, owing to the deposit of black powder on the surface. Soft pieces of old linen dipped in cold water will afford relief at first, and in some cases, powdered starch or flour, forms a soothing application; but as soon as the first moments of distress are over, a dressing should be applied composed of equal parts of limewater and linseed oil. As soon as practicable the grains of powder that lodge in the skin should be removed with a needle or the point of a lancet. If this is not done, the burn will heal over them, and the surface ever after will be disfigured with a bluish mark. In cases of raw burns, the whites of eggs well beaten, and then applied to the surface with a soft camel's hair brush, sometimes will give immediate relief; but where blisters are raised, great care should be taken not to tear them; if they are cautiously punctured with a needle, the water beneath will run out and they will fall, thus forming a perfect protection. Burns should always be protected from immediate contact with the air.

The British Government has taken action under the article of the treaty providing for the payment of the claims of British subjects, in the appointment of an agent to receive and represent such claims before the Commissioners. The agent is Mr. Henry Howard, third secretary in the British diplomatic service at Washington. Mr. Howard becomes in effect the official attorney of the claimants, appointed by the Government to protect and secure their interests. And all persons having claims against the United States arising within the terms of the treaty, are notified to transmit the same to the agent, with documental evidence in their support, preparatory to their submission to the Commission. This looks like business, and it will not be long before the special measures by which the settlements of the treaty are to be fixed and concluded will all be in process of transaction.

The will of the wealthiest woman in Clermont county, Ohio, was admitted to probate last week, and created some sensation in the neighborhood. Deceased inherited her immense estate from her first husband, John Kugler. During her widowhood and since her marriage to Mr. Townsend, she had disposed of some $200,000 of the estate to relatives of her own and her first husband. She gave her second husband $50,000, then makes some forty legacies of $1,000 to $5,000, chiefly to a surprising large clan of nephews and nieces; then distributes about $25,000 among charitable institutions and religious societies, chiefly Methodist Episcopal, and finally divides up "the balance of the estate among all the heirs herein named."

Massillon, Wednesday, August 2.

State Republican Ticket.

Governor.....EDWARD F. NOYES.
Lieut. Governor.....JACOB MUELLER
Supreme Judge.....WILLIAM H. WEST
State Treasurer.....ISAAC R. WELCH
State Auditor.....JAMES WILLIAMS.
Attorney-General.....E. B. POND.
School Commissioner.....T. W. HARVEY.
Clerk Supreme Court.....RODNEY FOOS.
Board Public Works.....S. R. HOSMER.

As far as we can learn the following are the candidates nominated by the republicans of Stark county, on last Saturday: Senator, Arvine C. Wales; Representatives, S. C. Bowman, E. N. Johnson; Auditor, E. A. Lee; Treasurer, I. N. Allen; Clerk, Edwin Page; Sheriff, Enos Raffensperger; Commissioner, Cyrus Zollars; Coroner, Daniel Dewalt; Justice of the peace for Perry township, Warren C. Richards.

The Sunday question is waking up no little attention, especially at Cincinnati. There the Germans, or a portion of them, are said to be making efforts to abolish the laws against those Sunday drinking frolics which are more or less common about a great many cities. The religious observance of Sunday is a somewhat private matter for each to settle for himself, as to how far it should prevent secular or week day work. While all should be free to enjoy the largest liberty in religious freedom, yet it seems to us that we should observe one day in the week as a time of rest, even if for no other purpose than to recuperate the physical system. It is acknowledged to be a good institution in this sense, and jaded nature unequivocally responds to the observance in the affirmative. This movement is said to be of foreign importation. What is good and virtuous in foreign countries we welcome to our shores, but that which is of opposite character it is better should be left beyond the broad ocean. We are in to the fullest extent for all classes to enjoy themselves, but there are limits even in this particular, as plenty of examples may be found which are indigenous to our country. A good, moral, well regulated community always looks with disapprobation on drinking and carousing on any day in the week; and if this is the liberty some are seeking to establish we want none of it.

The New York Times has become very saucy toward the municipal chiefs of that city, including mayor Hall, Boss Tweed, Connolly and others. That paper comes square out and denounces them by name as thieves, who have stolen millions of the peoples' money. And it looks suspicious, as they have not brought the accuser to trial, though he has challenged them to do so.

A ferry boat at New York, on the 30th ult. exploded the boiler with terrible results. It is reported that thirty one persons were killed and a large number severely wounded—some perhaps fatally. The accident has caused a shudder of sensation all over the country, wherever known, as one of the terrible calamities of the later days. Who was to blame, whether anybody, is not yet announced. At the least the loss of life was a fearful one, and the subject needs investigation.

The oldest inhabitant died recently in Kansas. He was a French Canadian, named Jacob Fournais, and as near as could be made out, was one hundred and thirty five years of age at the time of his decease. He was never sick. He could tell of the battle of Abraham, near Quebec, which took place September, 1756, when Wolf was killed—a noted contest in Canadian history.

Somebody has set afloat another petticoat story about Jeff Davis, the truth of which he and his friends vehemently deny. Those who make the charge allege it to be true. The first adventure of this kind in which he was signalized had boots attached—this time no boots were about, but it is said a woman was there.

By the papers we notice that some of the broad gauge railroads have recently been reduced from 6 ft. to 4 ft. 8 inches, the ordinary width. The broad gauges have not been a success in this country. A great disposition is evinced in favor of making narrow gauge, not more than three feet wide. Their comparative cheapness and practical efficiency, wherever they have been tried, commend them to those who would avail themselves of this favorite means of locomotion. At a sale for that purpose at Akron one day last week, the A. & G. W. road, or that portion of it in Ohio, was bid off to Senator Thurman for $4,500,000. He probably made this bid for other parties, perhaps the English capitalists.

John Slidell one of the rebel chiefs well known as one of the Mason & Slidell firm of traitors during the war, and who were saved from punishment by British interposition, died the other day.

Hunter, the murderer of several members of the Gargett family, has been tried at Akron, found guilty of murder in the first degree, and sentenced to be hung on the 21st of November next. Although attempts were set up to render the case one of emotional insanity, the court was not influenced thereby, but concluded that the circumstances were so strong favoring the prisoner's deliberate guilt, there was no evading the conclusion at which the jury arrived.

FOOLS ARE NOT ALL DEAD.—The two follies of using coal oil in kindling fires, and keeping fire arms as protection against burglars, seem to be increasing in their fatalities. It is next to impossible to pick up a daily paper that does not contain an account of an accident from one or the other of these causes. On Monday of last week an old lady was burned to death at Toledo, cause—pouring carbon oil into a stove. On the same day a man at Shelby killed one daughter and terribly burned another by the same process. And to-day (Tuesday) we hear that an old citizen of Fall River, Ill., shot and killed his son in law in the hall of his house, under the impression that he was a burglar who intended to rob him of an amount of money which he had received that day.

Since the death of Mr. Vallandigham, no less than half a dozen persons have been killed or severely wounded while attempting to show how Vallandigham came to his death.

By a despatch in Thursday's *Herald* we learn that Bismarck has been created Duke of Luxemborg. We were told before that Bismarck was to be created Duke of Strasborg. It will not be surprising to learn Luxemborg is a mistake and that Strasborg was intended. Luxemborg is still the property of the King of Holland. The cable does sometimes make mistakes.

CAN'T BE DONE.

The La Crosse *Republican* thinks it's of no use for the Democratic politicians to undertake to impose themselves upon the country in the guise of Republicans. It says:

"The 'new departure' of the Democratic party is everywhere regarded as an attempt to repeat the murderous trick which was once so successfully performed by some rebel regiments in the first battle of Bull Run, when they adopted the disguise of Union Soldiers, and wore the blue instead of the gray, until they decoyed the Federal troops within range of the masked batteries and the raking fire of the disguised enemy. It is the same old trick of pirates on the ocean, who change flags to suit their purposes. Esau's ventriloquism enabled him to imitate Jacob's voice, but the rogue was detected by his hairy pelt. The Democratic party may cast off its rebel gray and put on the Federal blue, and change its base, and endorse the constitutional amendments, and perform Yankee Doodle, 'with the variations,' but it cannot obliterate its record of treason, crime and infamy."

The Dayton correspondent of the Cincinnati *Gazette* says:

I can not refrain from saying that in no place in the whole land is the 'new departure,' inaugurated by the late Mr. Valland gham, so utterly dead as here, where it was set in motion by a great flourish of trumpets. It is never mentioned, unless it be derisively. Mr. Vallandigham gave vital force to the 'dogma,' and now that he is dead, the 'nine days wonder' has been permitted to die with him. The Democracy has simply acquiesced in the movement because Mr. Vallandigham desired it, not because they were convinced of its wisdom or its justice. They would quite as readily agree to any other 'departure' he had made, no matter how inconsistent with the previous faith, or how much it would have gone against the democratic grain. An old bell-weather in the Democratic flock here said, after Mr. Vallandigham's presentation of the new gospel: "It's mighty rough, I tell you—next thing to death! But I'll go through fire for Val! But will the faithful go through fire for anybody else? That is the question that is being answered negatively hereaway.

In the summing up of the sub committee on ku klux and the digest of the facts established by the whole investigation, made up by the Washington resident republican executive committee, we have a very fair statement of the condition of things at the south. The sub committee spent four weeks in the country, taking testimony and seeing and hearing for themselves. Their report as summarized, is before the country; and the facts therein detailed together with the results of previous investigations, justify the conclusions arrived at by the Washington committee. That the irreconcilables of the south see no hope for them but through the success of the democratic party is admitted; that these outrages are perpetrated in the interest of the democracy is too evident to admit of a cavil; and that a ku klux organization, working to prevent the spread of republicanism and promote the interest of the democracy, does exist in the south is a conclusion to which all candid examination tends.

THE CHEYENNE ATROCITIES—The Indian horror that was enacted near Fort Still recently, when the hundred and fifty Cheyennes captured a government train, killing eight teamsters and taking five others prisoners, is replete with all the most cruel elements of savage warfare. Two of the captives were tortured to death, having their tongues cut out and their ears lopped off, and then being burned at the stake. The three remaining prisoners managed to escape during a drunken carousal of their guard and arrived safely at Fort Leavenworth. They state that there were a number of white men disguised as Indians in the band, and that they were as cruel and vicious as the redmen themselves, that two women, one of the a beautiful girl of eighteen, were held as captives by the band.

These Cheyennes are the most vicious and relentless enemies that the the white settlers have on the Plains They defied the Indian agents and the government authorities, refusing to make any peace with them or even to hold any council looking to terms of peace. They have Indian duplicity and cunning enough to keep very quiet when the weather is unfavorable for their work of pillage or the white cavalry is near their neighborhood in unusual force; but they wage continuous warfare upon defenceless settlers, and when they muster men enough, are bold and determined, even to the extent of attacking armed trains and cavalry. If we were ever in a state of war with any people we are in a state of war with these Cheyennes, and in view of this latest atrocity a heavy force of cavalry should immediately be sent from the various forts north and south in the Indian country in order to make an end of them while the weather is fit for campaigning. It is useless to pursue them with infantry, and it is almost as useless to start after them with only one body of cavalry. They can fly before our heavy dragons as easily as before our foot soldiers. But several bodies of cavalry should be sent out to intercept them, to pen them up if possible, so that they must surrender or fight. This is the only way to treat with such determined barbarians as the Cheyennes.

Bismarck is holding the French to all that is nominated in the bond. He was lenient in requiring the first payment on the indemnity, as France was then in no condition to pay the five hundred million francs due within thirty days after the conclusion of the Treaty of Frankfort, and only that amount has been so far paid over. In consonance with the terms of the Treaty, the departments of the Seine Inferieure, Somme, and Eure have been evacuated. It was then said that a partial anticipation of the second installment—one thousand million francs—would permit the evacuation of the forts about Paris; but Bismarck declines to be wheedled into any such arrangement; he will give up the forts when Germany has the full tale of indemnity.

INCREASE OF OUR FOREIGN COMMERCE.—It is said that the report of the Bureau of Statistics, which is about to be issued by the government at Washington, will show that both the imports and exports of this country had largely increased in the eleven months ending May 31, 1871, over those of the corresponding period last year. The increase of imports amounted to nearly seventy millions of dollars and the exports about the same. We would rather have learned that the exports had vastly increased and that the imports were not so large. In the exports, we suppose, gold is reckoned, and it is this continuous drain of the precious metal to make up the balance of trade against us that keeps gold at a premium and prices of everything higher than they should be. But there is no cure for this, we suppose, till the American people become less extravagant or the country becomes so overwhelmingly rich that nothing can disturb our financial condition.

The Sunday Mercury verdantly asks: "Did any one ever hear of a prohibitory liquor law that originated with a democratic legislature?"

Can the Mercury be ignorant of the fact that the original Maine liquor law was passed by a legislature democratic in both houses and signed by a democratic governor?—N. Y. Tribune.

The stringent Ohio liquor law of 1854, was passed by a strong democratic legislature.

A Card to the Ladies.

DR. DUPONCO'S.

Golden Periodical Pills,

FOR FEMALES,

Infallible in correcting irregularities, Removing obstructions of the Monthly periods, from whatever Cause, and always successful as A Preventive.

ONE MILLION OF LIVES SAVED!

It is one of the remarkable facts of this remarkable age, not merely that so many persons are victims of dyspepia or indigestion, but its willing victims. Now we would not be understood to say that any one regards dyspepsia with favor, or feels disposed to rank it among the luxuries of life. Far from it. Those who have experienced its torments would scout such an idea. All dread it, and would gladly dispense with its unpleasant familiarities. There are diseases more acute and painful, and which more frequently prove fatal; but none, the effects of which are more distressing to the body. If there is a wretched being in the world it is

A CONFIRMED DYSPEPTIC.

But it not our intention to discant on the horrors of dyspepsia. To describe them truthfully is simply an impossibility. We have said that dyspepsia is perhaps the most universal of human diseases. This is emphatically the case in the United States. Whether this general prevalence is due to the character of the food, the method of its preparation, or the hasty manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is this:

DYSPEPSIA PREVAILS

almost universally.

Nearly every other person you meet is a victim, an apparently willing one; for were this not the case, why so many sufferers, when a certain, speedy and safe remedy is within the reach of all who desire to avail themselves of it? But says a dyspeptic, What is this remedy? to which we reply. This great alleviator of human suffering is almost as widely known as the English language. This acknowledged panacea is none other than

HOOFLAND'S GERMAN BITTERS.

Would you know more of the merits of this wonderful medicine than can be learned from the experience of others? Try it yourself, and when it has failed to fulfil the assurance of its efficacy given by the proprietor, then abandon faith in it,

LET IT BE REMEMBERED

first of all, that Hoofland's German Bitters is not a rum beverage.

They are not alcoholic in any sense of the term. They are composed entirely of the pure juice or vital principle of roots. The extracts from which they are compounded are prepared by one of the ablest German chemists. The objections which hold with so much force against preparations of this class, namely—that a desire for intoxicating drinks is stimulated by their use, are not valid in case of the German Bitters. Their effects can be

BENEFICIAL ONLY

in all cases of the biliary system. Hoofland's German Bitters stand without an equal, acting promptly and vigorously on the liver; they remove its torpidity and cause healthful secretion of the bile. They impart vigor and strength to the entire system, causing the patient to feel like another being—in fact, giving him a new lease of life.

THEY PURIFY THE BLOOD,

cleansing the vital fluid of all hurtful impurities and supplanting them with the elements of genuine healthfulness. In a word, there is scarcely a disease in which they cannot be safely and beneficially employed; but in the generally prevalent distressing and dreaded disease, dyspepsia,

THEY STAND UNRIVALED.

Now, there are certain classes of persons to whom extreme bitters are not only unpalatable, but who find it impossible to take them without positive discomfort. For such

HOOFLAND'S GERMAN TONIC

has been prepared. It is intended for use where a slight alcoholic stimulant is required. This tonic contains all the ingredients of the bitters, but so flavored as to remove the extreme bitterness.

HOOFLAND'S TONIC

acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, but invigorates and permenently strengthens its action upon the liver and stomach thorough, perhaps less prompt than the Bitters, when the same quality is taken is none the less certain. Indigestion, biliousness; physical or nervous prostration, yield readily to its potent influence. It gives strength to weakness, throws despondency to the winds, and starts the restored invalid upon a new and gladsome career. But Dr. Hoofland's benefactions to the human race are not confined to his celebrated

GERMAN BITTERS,

or his invaluable Tonic. He has prepared another medicine, which is rapidly winning its way to popular favor because of its intrinsic merits. This is

HOOFLAND'S PODOPHYLLIN PILLS

a perfect substitute for mercury, without any of mercury's evil qualities.

These wonderful pills which are intended to act upon the liver, are mainly composed of Podophyllin, or the

VITAL PRINCIPLE OF MANDRAKE ROOT.

Now we disire the reader to distinctly understand that this extract of the Mandrake is many times more powerful than the Mandrake itself. It is the medical virtues of this health giving plant in a perfectly pure and highly concentrated form. Hence it is that two of the Podophyllin pills constitue a full dose, while anywhere six to eight or a handful of other preperations of the Mandrake are required. The Podophyllin

ACTS DIRECTLY ON THE LIVER

stimulating its functions and causing it to make its biliary secretions in regular and proper quantities. The injurious results which invariably follow the use of mercury is entirely avoided by their use.

Possessing desirable qualities, the Podophyllin becomes invaluable as a

FAMILY MEDICINE

No household shou'd be without them. They are perfectly safe, require but two for an ordinary dose are prompt and efficient in action, and when used in connection with Dr. Hoofland's German Bitters, or Tonic, may be regarded as certain specifies in all cases of liver complaint dyspepsia, or any of the disorders to which the system is ordinarily subject. The

PODOPHYLLIN PILLS

act upon the stomach and bowels, carrying off improper obstructions, while the Bitters or Tonic purify the blood.

DR. HOOFLAND'S GREEK OIL.

Cures rheumatism, neuralgia toothache chilblains, sprains, burns, pain in the back, and loins, by enternal application.

Taken internally cures, heart burn, kidney diseases, sick headaches, colic, dysentary, cramps, cold and asthma &c. Sent by express to any locality upon application to the principal office, at the German Medicine store, No 631 Arch street. Philadelphia.

Ψυχη PSYCHOLOGY.

This word is derived from the Greek, signifying the power of the soul, spirit or mind, and is the basis of all human knowledge. Psychmancy is the title of a book of 100 pages, by Herbert Hamilton, B. A., giving full instructions in the science of soul charming and physcologic fascination: how to exert this wonderful power over men or animals instantaneously, at will. It teaches mesmerism, how to become trance or writing mediums, divination, spiritualism, alchemy, philosophy of omens and dreams, Brigham Young's Harem, Guide to Marriage &c. This is the only book in the English language professing to teach this occult power, and is of immense advantage to the merchant in selling goods, the lawyer in gaining the confidence of jurors, and the physician in healing the sick, to lovers, in securing the affections of the opposite sex, and all seeking riches or happiness. Price by mail, in cloth, $1.25; paper covers, $1 Agents wanted for this book, private medical works, perfumery, jewelry &c., who will receive samples free. Address T. W. Evans, Publisher and Perfumer, 41 South st. Philadelphia, Pa.

JURUBEBA

WHAT IS IT?

It is a sure and perfect remedy for all diseases of the liver and spleen, enlargement or obstruction of intestines, urinary, uterine or abdominal organs, poverty or a want of blood, intermittent or remittent fevers, inflamation of the liver, dropsy, sluggish circulation of the blood, abscesses, tumors, jaundice, scrofula, dyspepsia, ague and fevers or their concomittants.

Dr. Wells having become aware of the extraordinary medicinal properties of the south American plant, called

JURUBEBA

sent a special commission to that country to procure it in its native purity, and having found its wonderful curative properties to even excell the anticipations formed by its great reputation, has concluded to offer it to the public, and is happy to state that he has perfected arrangements for a regular monthly supply of this wonderful plant. He has spent much time in experimenting and investigating as to the most efficient preparation from it, for popular use, and has for some time used in his own practice with most happy results the effectual medicine now presented to the public as

Dr Wells' Extract of Jurubeba.

And he confidently recommends it to every family as a household remedy which should be freely taken as a blood purifier in all derangements of the system and to animate and fortify all weak and lymphatic temperaments. John Q. Kellogg, Platt st. N. Y. Sole agent for the United States. Price one dollar per bottle. Send for circular.

Unto The Fourth Generation

Descend the sins of the fathers arising from Licencious Habits and Sexual Abuses. Poisoned blood, physical debility, nervous prostration, loss of memory, want of energy indigestion, impotency, and all the fearful mental effects of Solitary Vice conscientiously and confidentially treated by Thos J. Kisner, M D. Resident physician for all chronic diseases of the blood, sexual and urinary organs arising from specific causes, or otherwise. Office 338 Public Square, Cleveland, Ohio. Refer to D J Keeler M D, Dr. K K Harrison and others of this city. 479—1y

A GREAT MEDICAL DISCOVERY.

MILLIONS Bear Testimony to the Wonderful Curative Effects of DR. WALKER'S CALIFORNIA

VINEGAR BITTERS

VEGETABLE — FREE FROM ALCOHOL — PURELY — CALIFORNIA — VINEGAR BITTERS — EUREKA

J. WALKER Proprietor. R. H. McDONALD & Co. Druggists and Gen. Agts, San Francisco, Cal., and 32 and 34 Commerce St, N.Y.

Vinegar Bitters are not a vile **Fancy Drink**, Made of **Poor Rum Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE,** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful.

Such Diseases are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores, cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

J. WALKER, Proprietor. R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

MAY 1871.

JAMES B. ESTEP

Asks attention to many special offerings in the Dry Goods line that will be sold

Strictly for Cash,

at the closest possible discount. The losses through misplaced confidence, to any merchant doing a credit business, are numerous, and corrupts the integrity and solvency of an establishment, as protective tariffs operate as monopolies disease impoverishes the body physical. 412tf

DR. AUGUSTUS SLEE

Treats all private diseases with great success. Spermatorrhœa, or seminal weakness and impotency, caused by selfabuse, etc—producing General Debility of the body, Indigestion, want of proper Manliness, Loss of Memory, Indolence; reducing the System so as to render Marriage unadvisable—Permently Cured.

Long standing constitutional disease skillfully treated and cured.

Effects of Mercury Eradiated.

The doctor gives particular attention to Female complaints. Sterility, Ammenorrhœa, Menorrhagia, and all such diseases, causing annoyance and interfering with the general health and enjoyment of life, invariably removed.

Send for the doctor's medical pamphlet, treatire, in plain language, on veneral diseases, enabling the afflicted to understand their own complaints. Free at office or sent securely sealed, for six cents.

Ample accomodations for patients from a distance at the house.

Office hours from 9 A. M. to 8 P. M., Sundays excepted. All communictions to be addressed DR. AUGUSTUS SLEE,

HOLLIDAYSBURG PA.

Flint & Pere Marquette R R Co's

Lands in Michigan.

The lands of this company, located along the line of its railway, over

300,000 ACRES,

Are offered for sale! These lands include many choice tracts of Pine and other valuable timber, and also large quantities of

EXCELLENT FARMING LANDS.

The lands will be sold at fair prices and on

Easy Terms.

This railroad is now completed to the west line of Clare county, and will probably have trains running direct from Toledo, via East Saginaw, to Lake Michigan by the close of 1872.

TERMS OF SALE.

One fourth down in all cases and balance may be paid in three annual payments

Timber lands must be paid for before being cut.

Farming lands, for actual settlement, will be sold on payment of one fourth in cash and the balance, at buyers option, at any time in five years.

Interest, at the rate of 7 per cent on all unpaid balances, to be paid annually.

All contracts and notes made payable at the Merchants National Bank in East Saginaw.

For bargains or information concerning these lands, call on or address

WM L WEBBER, Land Commissioner,
Land office at East Saginaw, Mich.

CHEAP FARMS—CHEAP TRAVEL!

Chicago, Rock Island and Pacific Railroad Company.

500,000 *Acres Iowa choice Lands*

This company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the state.

Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.

These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.

For maps, pamphlets, or other information respecting them, address EBENEZER COOK, land commissioner, Davenport, Iowa.

Exploring tickets are sold at the company's offies at Chicago, and at other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

Agents! Read This.

We will pay agents a salary of $30 per week and expenses, or allow a large commission to sell our new and wonderful inventions. Address M. Wagner & Co. Marshall, Mich.

AGENTS TAKE NOTICE.

The reason our agents make so much money, is because our goods are first class; people like them, and they are warranted. More live agents wanted. A. E. TAYLOR, New Britain, Conn.

Salesmen wanted to travel for a manufacturing Co. Good salary, steady employment S. P. COOPER & CO., 166 Elm st., Cincinnati, O.

A Million Dollars.

Showed but quiet men can make a fortune by revealing the secret of the business to no one. Address, J WEST, 688 Broadway, New York.

"Mothers' Comfort."

The best, cheapest and most reliable Soothing Syrup for children. Sold by druggists.

A CARD.

A clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the cure of nervous weakness, early decay, disease of the urinary and seminal organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Promoted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, free of charge. Address JOS. T. INMAN Station D, Bible House, N Y. City.

EXPERIENCE of successful advertisers, 100 pps. Mailed for 25cts. G. P. ROWELL & CO., N. Y.

A Few Words to the Ladies.

Many ladies, particularly mothers nursing, complain of a tired listless feeling, or complete exhaustion, on arrising in the morning On the wife and mother devolves the responsibility of regulating the duties of the household. Her cares are numerous, and the mental as well as the physical powers are frequently called into requision She often finds her slightest occupation a weary task and existence a burden, while at the same time she has no regular disease. Hostetter's Stomach Bitters, if resorted to at this period, will prove an unfailing remedy for this annoying lassitude. The effects of this potent agent are soon seen in the rosy cheek and elastic step of the head of the family, as with restored health and renewed spirits she takes her accustomed place in the family circle. If this friend in need be regularly used, those depressing symptoms will never be complained of, and not only would lassitude not be experienced, but many diseases following its advent be avoided. As a medical agent it has no equal, while its pleasing flavor, and healthful effects have made it a general favorite. It is free from all properties calculated to impair the system, and its operations are at once mild, soothing, and efficient. All who have used the bitters attest its virtues and commend it to use.

NEWSPAPERARCHIVE®

LOCAL MATTERS.

Preaching will be had at the usual hours on next Sunday, we are informed, at the Disciples church, by an elder from Wooster—name not known.

Governor John C. Lee will speak at Canton on Thursday, August 24th. Fuller notice hereafter.

The Disciples of Stark county will hold their next annual meeting in a grove between the villages of New Baltimore and Marlboro, commencing on Friday the 11th inst., and continuing some three or four days.

The republican primary election which came off last Saturday was an exciting and hotly contested one: the friends of all parties labored hard for the success of their favorites. To a disinterested person it was amusing to stand back and witness the maneuvers of the wire pullers, Below we give the result of the vote in Perry township.

Central Committeeman,

W C Richards,

Our people are much gratified with the railroad prospects, since it is announced that all the stock is taken. This looks like earnest work, but we trust that it is but the beginning—that active labor will soon follow there is little doubt. Cleveland and Massillon are now close neighbors, but this proposed connection will bring the cities nearer together.

The trotting park association, of this place, an organization which was recommended in these columns some two months ago, is taking shape, and will be a reality before long. The financial part of the work is being successfully prosecuted, and a sufficient amount will soon be subscribed to carry out the contemplated project.

Niles is one of the live towns, at least so far as manufacturing is concerned. The other business of the place seems small, but the nail manufactory, several furnaces, and four rolling mills make the locality an active hive. One establishment employs some 500 men a portion of the time, and the others give work to many hundreds more. A locomotive is kept busy in making up and unmaking freight trains. The town is more than forty years of age, but it is only of late that it has assumed such activity in iron work.

A very large congregation of people, and several ministers, attended and participated at the dedication of the finely built and well finished Evangelical Lutheran Jerusalem Church at Canton, last Sunday. Many of our citizens were present.

A very interesting trial of reapers was had at Fairview, on the 26th ult., where some half dozen machines participated. About five hundred persons were present, most of them were farmers, all of whom took a deep interest in the contest. All the machines had their merits, and this trial was a good advertisement in their behalf.

Somebody here has written a fluent article which appears in the Cleveland *Herald* of the 29th ult., concerning Stark county politics in general, and a cunning dead beat in particular. This impostor, pretending to be of the U. S. navy, must be a choice rascal, as he has been foraging on various parties enumerated by Renan, in assessments from $10 to $25. It is time he should come to the end of his string, or the end of a rope man tend to end his days.

There are a good many stumps to pull yet, and the Excelsior Works of Massillon is manufacturing a comparatively cheap, simple and efficient machine, which possesses great power, and does its work well

Sweeping with a broom looks like a simple operation, yet there is a right and a wrong way to perform the work. An unpracticed boy who makes his first attempts in this art is very apt to handle the broom very much as if he were working with a shovel—he pushes it before him with the points of the straws endwise towards the dirt or dust to be removed. Thus gives the broom a very poor chance to do its work properly, but a woman who knows how to handle it dont work in that way. She *draws* the implement in a different manner, as if to persuade the fine dust rather than pitch into it, sharp points first. Of course her work is done more efficiently, the broom does better work, suffers less, and a neater job is the result.

A large number were in attendance at the commencement of the Mt Union College, on the 26th ult. All who were present unite in saying this was one of the pleasant and agreeable public demonstrations of that well established institution of learning.

The first watermelons of the season put in their appearance at Albright Bros. grocery last Thursday.

Some poet has broken loose in Canton, and pleads with the marshal to let em ere hogs have the largest liberty—for they root things. But he is death on the tater bugs.

Grady's circus went on with the show cast of us: at Alliance and Salem, a brother of Mr. Torres, the man who was unfortunately drowned while the exhibition was here, taking his place in the balloon.

The second annual Ohio camp meeting will commence at Canton on the 15th inst. Preparations are being made for an unusually large attendance. Some of the most eminent speakers in this vicinity are expected to be present and take part in the exercises.

About this time a great many of our lady friends are complaining of the trouble occasioned by those "household pets," the flies, and for their benefit we publish the following, which we find in one of our exchanges: Take half a teaspoonful of black pepper, ground; one teaspoonful of brown sugar, and one teaspoonful of cream, mix them well together and place in the room on a plate, and the flies will soon disappear.

Efforts have been making for some time past to form a Driving Park Association, and we are glad to learn are meeting with success. The requisite amount and a suitable plat of ground has been raised. The location settled upon, is a part of the Naham Russell farm a short distance east of town, on the Canton road, and is one of the finest and most desirable locations for a thing of this kind to be found hereabouts.

The street musicians who visited our city last Wednesday, succeeded in drawing quite a number of "stamps" from the pockets of their appreciative audiences,

A few days ago a number of our veteran "setters" started for Millersburg to work on the extension of the Mt. Vernon & Delaware road, but after a day or two's acquaintance with the mattock and spade they came to the conclusion that "twas a dog site easier to sponge off the old man than it was to work," and now—well, look at the store boxes and shady corners,—that's all

Lack of rain and no lack of frost in the spring was a God send to a class of people whose greatest enjoyment seems to be found in grumbling, and fault finding. Copious rains in time to make more than average crops, much of it already housed, with no fear of starvation or any great calamity staring them in the face; where will chronic grumblers look for happiness?

Merry's Museum, for boys and girls, published by Horace B. Fuller, Boston, in addition to its accustomed wealth of usefulness to those for whom it is so well adapted, proposes to send a beautiful chromo picture in the next number to its subscribers. Here is a new incitement to invest in this nice little monthly.

A sad occurrence transpired last week at Canton. A young man named List, of that place, as we are informed, about 18 or 19 years of age, because smitten with a married woman, and on her refusal to marry him he took a fatal dose of laudanum on Friday, from the effects of which he died before medical relief could be brought to his assistance. Much gossip is afloat concerning the matter to which it were well the public would pay no attention.

For some days past workmen have been busily engaged in laying brick at the new residence of C. N. Oberlin, on the corner of Main and East streets. When completed it will be one of the finest places in this city.

Brick work at the new gas house is about completed ready for roofing. The building is quite a neat looking structure, about as large as the old one. It will be finished before long, when we shall be blessed with well lighted streets.

A band of gypsies, with horses of the pantomime order, passed through town last Thursday, going east. They are encamped in the woods between this place and Canton.

The papers are publishing an item which states the fact that in the county of Noble, which has a population of some 20,000 people, there is not a single grog shop or place where liquor that intoxicates can be had. That county, if this statement is literally true, is well named. It may well be called *Noble*, and its people may truly be proud of their fortunate freedom from the curse of alcohol. The papers take the liberty of telling us that this condition of things has not been brought about by political action. Do they know that assumption is correct? But whether their conclusion is just or not they ought to have the candor to admit that if we could have more such noble counties, even by political action—and that action will bring such results—it would be to the glory, benefit and honor of our state.

Boys, you who are just starting out in the world to do for yourselves, to endeavor to make your mark and accomplish some good, thereby obtaining the honor and respect of all with whom you come in contact, how do you spend the evenings? Is it at the saloons, billiard rooms, and in loafing on the street corners, or is it at home engaged in study or reading some useful book? Now, we take it for granted that there are no young men having respectable parents, but that, when they first set out in life, have a desire to be thought well of and to gain some point of distinction in the world; but the important question is how to do it. The boy who spends his evenings on the streets, or frequenting beer saloons or billiard rooms is pretty sure to yield to the giant temptations to do evil, and be carried, ere he is aware of it, into the whirlpool of dissipation and degradation, and end with a life of crime and misery: while the instance is of rare occurrence where the one who stays at home and employs his time properly, falls into disgrace of any sort, but on the contrary, generally grows up to be distinguished by all who know him as a model after whom they should pattern.

Mr. I. N. Doxsee, of the Union Mills, has had built a finely constructed delivery wagon, made at the Massillon Carriage Factory. It is an elegant piece of workmanship—could not well be otherwise coming from the establishment it does.

Dress goods at cost at Ricks'

A RAILROAD MEETING

Will be held at Massillon on Monday, August 28th. At a recent meeting of stockholders at Cleveland it was ascertained that the state of the subscriptions were sufficient to justify taking steps for proceeding with the work. All who are interested are invited to be present at the time and place above designated.

A RELIGIOUS MEETING

Will be held on to-morrow evening at the M. E. church which will be addressed by Edith Griffith, of Brownsville, Pa., a distinguished member of the society of Friends. She is represented as a speaker of much more than ordinary ability. All are respectfully invited.

The choice for judge on last Saturday is claimed to be in doubt as to whether Judge Frease or Mr. Tripp is ahead. Report says the deligate vote in Stark county is a tie.

Harper's Magazine for August, like its predecessors, is filled with valuable contents, but there is one article especially which should interest all, and that illustrates and explains the system of meteorological observations, which our government has recently adopted, and which are proving of such vast practical utility. The many other pages are rich in literary, scientific, historical and other reading.

About ten or twelve years ago a very young man, or rather a boy at that time, started a little news depot on fifth street, Pittsburgh. Business prospered with him, his depot grew—now he is one of the principals at the head of a daily paper. This prosperity comes of industry, integrity, enterprise and laudable disposition to excel. The *Daily Leader*, of which John R. Pittock, (formerly the juvenile news depot proprietor,) and Mr. Nevins are publishers, is one of the institutions of the busy, smoky city Mr. Crooks keeps the Leader and other dailies, with weeklies, monthlies, stationery, &c., for sale at the Opera House.

The cold days we had a week ago, accompanied with heavy rains, have been succeeded by dry weather and a considerable elevation of the mercury. Good for growing vegetation.

Myers & Willison are still on the road for improvement. They are now manufacturing a new scraper, which possesses many advantages over anything of that kind ever yet presented to the public.

David Tatum, of Cleveland, O., is now successfully lecturing on temperance, and in favor of prohibition. He has been in Columbiana county, and is now in Stark, and will speak at Harrisburg this evening, at Strasburg on the 4th, at Louisville on the 3d, at Mt. Union on the 5th inst. He is an earnest, devoted worker in the cause, and is wielding good influence.

Mr. Adam Forster, the barber who has for a considerable time been carrying on shaving operations in the basement of the American, has removed to one of Mr. Falke's rooms just opposite the park. It is a pleasant location, and Adam will perform his part satisfactorily to customers.

We hear it reported that the wholesale liquor store of Davis & Co., are about to pull up stakes and remove their benzene to the Metropolis.

Reported for the Independent.

COUNCIL PROCEEDINGS.

Wednesday Evn'g, July 26, 1871.

Regular Session—G. L. Russell presiding

Roll Call—Members present, Messrs. Russell Mong, Oberlin, Ruchti, Bollinger and Crone.

Minutes read and approved.

The Street Commissioner submitted his regular report for work done on streets and alleys for the week ending July 22, to be $35,12, and amount of poll tax performed $40,50, amount of work done in excess of poll tax performed $44,62.

Orders were drawn in favor of and for the amounts as follows:

Jas Carrol, per order of Mr Hewes,	$30 00
Henry Wagner, blacksmithing,	13 25
T H Seaman, on Salary,	50 00
Conrad Bopp, hauling stakes,	00 75
Amt of judgment in favor of Clay & Ogden,	15 77

There being no further business the council adjourned.

The New York Times is after the political thieves of that city with supplements and triple sheets full of figures that convict democratic officials of stealing hundreds of thousands of dollars. The exposure is producing an effervescence in party and financial circles, but whether the excitement will amount to a nine days wonder is doubtful. The New York tax payers seem to act upon the adage that the pleasure is as great in being cheated as to cheat, and so those who do not steal are awed into silence, or purchase immunity from the knaves. We have no confidence that there is virtue, or the strength of numbers, sufficient to reform the government of that city, though it is made to appear that the officials deliberately rob the treasury. One late instance, among a score of others, is where a man named Keyser had a bill of $10,000 against the city. Persistent application failed to bring payment of the bill, until the man was told to make out his bill for $64,000 which he did, and, receiving his $10,000, handed the $54,000 over to the ring. The capitalists of New York are stirring in the matter, but nothing will come it; thieves rule New York and cannot be dispossessed.

THE DRS. OLDSHUE

These gentlemen have their office at 132 Grant street, Pittsburgh. Their system is known as the Urino-Pathological system. In other words they study disease by a careful, faithful and scientific examination of the urine, and prescribe remedies according to the result of their diagnosis. This, we know, is not so, popular a method of practice as some, still it is by no means a new one. Some of the most intelligent and learned physicians the world has ever known have been Urino-Pathists.

The Drs. Oldshue are scientific men, and have demonstrated themselves over and over again to be masters of their profession, in the healing of hundreds of the worst ailments to which flesh is heir. No man can be with them an hour and feel that they have thoroughly and scientific and practical sides. Then they are men who love their profession and do not follow it simply to make money, but to do good and bless mankind. The method of treatment they adopt is one too that puts the patient to the least possible trouble. They ask only to see a few ounces of his urine and know his age, and they will tell and do the rest. And they are most honorable man. And we take pleasure in commending such competent and highminded professional gentlemen.

The Massillon Hardware Store keeps an assortment of shelf and heavy hardware, and all of which was bought for cash. We sell as low as the lowest. Call and see for yourselves. KELLEY & BROWN, Erie street.

Is this assertion true? He who cannot reason is a fool; he who dare not reason is a coward; and he who will not reason is a bigot. It is strong language, but the question is, is it truthful? We leave somebody else to settle it,

Ricks' is the place to buy your muslin, they are selling good yard wide muslin for 10 cents. Call and see them.

ON MARRIAGE.

Essays for young men, on great Social Evils and Abuses, which interfere with Marriage—with sure means of relief for the Erring and Unfortunate, diseased and debilitated. Sent free in sealed envelopes. Address HOWARD ASSOCIATION, No. 2, S. Ninth st., Philadelphia, Pa. 412—1y

7-30 GOLD LOAN

OF THE

Northern Pacific Railroad.

Rapid Progress of the Work

The building of the Northern Pacific Railroad, (begun July last), is being pushed forward with great energy from both extremities of the line. Several thousand men are at work in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific road, the Northern Pacific Company now has 113 miles of completed road, and by September next this will be increased to at least 569.

A Good Investment.—Jay Cooke & Co., are now selling, and unhesitatingly recommend, as a profitable and perfectly safe investment, the first mortgage land grant gold bonds of the Northern Pacific Railroad company. They have 30 years to run, bear seven and three tenths per cent gold interest (more than 8 per cent currency) and are secured by first and only mortgage on the entire road and its equipments, and also as fast as the road is completed on

23,000 Acres of Land to every mile of track, or 500 acres for each $1000 bond. They are exempt from U. S. tax; principal and interest are payable in gold; Denominations: Coupons, $100 to $1000; Registered, $100 to $1000.

Lands for Bonds.—Northern Pacific 7-30's are at all times receivable at ten per cent above par, in exchange for company's lands, at their lowest cash price. This renders them practically interest bearing land warrants.

Sinking Fund.—The proceeds of all sales of lands are required to be devoted to the re-purchase and cancellation of the first mortgage bonds of the company. The land grant of the road exceeds fifty million acres. This immense sinking fund will undoubtedly cancel the principal of the company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people, which is more profitable or safe.

Exchanging U S Five-Twenties.—The success of the new government five per cent loan will compel the early surrender of the 6 per cents. Many holders of five twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

Other Securities.—All marketable stocks and bonds will be received at their highest current price in exchange for Northern Pacific seven-thirties. Express charges on money or bonds received, and on seven-thirties sent in return, will be paid by the financial agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

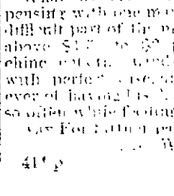
Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.



The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by its Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organs undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA: *Tetter, Salt Rheum, Scald Head, Ringworm, Erysipelas, St. Anthony's Fire, Rose or Erysipelas, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

NEWSPAPERARCHIVE®

The best wood for making cradles—Rock maple.

People say iron natures never weep, and yet we have seen whole rows of cannon in tiers.

Who was the wisest man? Knower. What did he know? He knew enough to go in out of the rain.

The man who "couldn't stand it any longer" has taken a seat, and now feels quite comfortable.

A bad marriage is like an electric machine; it makes you dance, but you can't let go.

A Connecticut town with but three churches, boasts of four deacons, each of whom has lost an eye.

Balloonists don't care about making much money. If they can only make ascent they are satisfied.

A wife's text—"The right man in the right place"—a husband at home in the evening.

"Sam, how many logs have you sawed, eh?" "Why, ma'am, when I've got this and three others done I'll have sawed four."

'Pa, why do they plant guns—do they grow and have leaves?

'No, my son, but like plants they shoot, and then others do the leaving.'

'I hope this hand is not counterfeit,' said a lover as he was toying with his sweetheart's hand. 'The best way to find out is to ring it,' was the reply.

'Are dose bells ringing for fire,' said Simon to Tiberius. 'No indeed' answered Tibe, 'day hab got plenty of fire, and the bells are ringing for water.'

In the midst of a heavy shower during a prolonged storm, a little miss was observed at a window, crying bitterly, 'What is the matter?" she was asked. 'I'm 'fraid.' 'There's nothing to hurt you; what are you afraid of?' ''Fraid of Noah!'

A little boy had a great liking for the water. His mother told him not to go on the wharves or near the water. "For Freddy, if you get drowned, we should never know what became of you." "Oh, yes you would, 'cause it would be in the papers."

About that conundrum, 'What shall my son be?'—which is the title of a book, you know—the Boston Post ventures a Yankee guess: 'We suppose it would be a boy.

Dr. Hall has written a long article to prove that it is unhealthy for a man and wife to sleep in the same room, but the Rome Commercial knows of some wives that would make it unhealthy for their husbands to sleep anywhere else.

The following speech is attributed to a member of the legislature of Pennsylvania: 'I know wimen, Mr. Speaker; I say it in no disrespect, I know um; I have had a heap to do with um. They're a useful class, and yet with the best of them you may have trouble.

An old legend represents on the one hand the arrival before the throne of God of the penitent souls whom His pity admits into heaven; on the other, Satan, who says, 'These souls have offended against thee a thousand times—I once,' 'Hast thou ever asked forgiveness?, replies the Eternal.

'Ma, I want some liquid generosity on my bread and butter.'

'Some what, my child?'

'Some liquid generosity.'

'What in the world does the boy mean by liquid generosity? What is it my son?'

'Gosh, mam, don't you know? Why it's molasses, to be sure!'

RATHER AWKWARD.

What terrible creatures are little children! They are always investigating affairs by the light of their own innocence, and bringing older people to confusion thereby.

The other day a little girl, not past the years of babyhood, was taken out to ride in a city car by her affectionate aunt. There had been considerable illness in the family, and she had seen one lady frequently supported on some one's shoulder, while her head was being bathed with camphor, or in order that she should change her position for awhile. Also there had been some fear of the invalid's death, and baby had listened to much that had set her thinking deeply. Now that she was perched upon the car cushions, she looked about her at the passengers, and soon settled her attention upon a young man and young girl, who probably not being well versed in the customs of polite society, were revealing the fact that they kept steady company, in true Central Park style. Anyone may see what that is by taking a walk in those paths by moonlight and looking at the benches, on every one of which seem to sit a young girl with her head upon a young man's shoulder and his arm about her waist.

Baby looked wisely for a while, then shook her head, and plucked her aunt by the sleeve.

'Aunty,' she said in a shrill, childish voice, 'oh, aunty, do you think that lady is going to die? the one the gentleman is holding upon his shoulder.

Aunty sat overcome. The majority of the passengers tittered audibly, while the more polite looked out of the window, and plainly saw something on the sidewalk which amused them. and the young lady's head was set straight upon her shoulder's in a moment, while her sweetheart indicated to the conductor his wish to alite at the next crossing, an operation which [illegible] with the remark that the city seemed to be better, and sidewalk lobby be all now.'

May, 3d, 1871—tf

Dr. J. LONG,

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office east of the Park, second door of Mr. Falke's new building.

All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters,

JAMES LONG, M. D.,

371-1y Massillon, Ohio.

MONEY CANNOT BUY IT!
For Sight is Priceless.

The Diamond Glasses,

Manufactured by

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the **Most Perfect**, Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, 'Diamond,' on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or center of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are Mounted in the Finest Manner in frames of the best quality, of all materials used for that purpose.

Their Finish and Durability cannot be surpassed.

CAUTION.—None genuine unless bearing their trade mark ◄► stamped on every frame. JOSEPH COLEMAN,

Jeweler and Optician, sole agent for Massillon, Ohio,

Manhood; how Lost, how Restored.

Just published, a new edition of Dr. CULVERWELL'S Celebrated Essay on the radical cure, without medicine, of Spermatorrhœa, or Seminal weakness, involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by self indulgence or sexual extravagance.

Price in a sealed envelope only six cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents

DR. WHITTIER

Continues to treat all private diseases, syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhœa or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are per a nently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and, treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

DR. PIERCE'S
ALT. EXT. OR GOLDEN MEDICAL DISCOVERY

The originator of this wonderful medicine claims to have discovered and combined in harmony more of Nature's most sovereign medical properties than was ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of Bronchitis and the early stages of Consumption, it has astonished the medical faculty, and hundreds of the best physicans pronounce it one greatest medical discoveries of the age. By its great and thorough blood purifying properties, it cures all Humors from the worst Scrofula to a common Pimple or Eruption. Mineral Poisons, Syphilitic and Venerial Diseases, and their effects are eradicated and vigorous health and a sound constitution established. Salt Rheum, Scald Head, Fever Sores, in short, all the numerous diseases caused by bad blood, are conquered this powerful, purifying, and invigorating medicine, for Liver Complaint, Billious Disorders and Habittual Constipation, it has produced hundreds of perfect and permanent cures where other medicines have failed.

The proprietor offers $1,000 reward for a medicine that will equal it in the cure of all the diseases for which it is recommended. Beware of counterfeits and worthless imitations. See that my private Government Stamp, which is a positive guarantee of Genuineness, is upon the outside wrapper. This medicine is sold by Druggists at $1.00 per bottle. Prepared by R. V. PIERCE, M. D., Sole Proprietor, at his Chemical Laboratory Seneca street, Buffola, N. Y.

Henry T. Helmbold's

COMPOUND FLUID

Extract Catawba

GRAPE PILLS.

Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

For Liver Complaints, Jaundice, Billious Affections, Sick or Nervous Headache, Costiveness, etc. Purely vegetable containing no Mercury, Minerals or Deleterious drugs.

H

These pills are the most elightfully pleasant purgative, superseding castor oil, salts, magnetia, etc. There is nothing more acceptable to the stomach. They give tone and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few day's use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound, Fluid Extract Catawba Grape Pills are not sugar coated, from the fact that sugar coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar coated, Price 50 cents per box.

E

Henry T. Helmbold's

Highly Concentrated Compound

Fluid Extract Sarsaparilla

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers sore eyes sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, rash, dyspepsia, and all diseases that have been established in the system for years.

L

Being prepared expressly for the above complaints, its blood purifying propensities are greater than any other preparation of Sarsaparilla. It gives the complection a clear and healthy color, and restores the patient to a state of health and purity. And is the only reliable remedy for the cure of pains and swellings of the bones, ulcerations of the throat and legs, blotches, pimples, erysipelas and all scaly eruptions on the skin, and beautifying the complexion. Price $1,50 per bottle.

M

Henry T. Helmbold's

CONCENTRATED

Fluid Extract Buchu,

The Great Diuretic, has cured every case of diabetes in which it has been given. Irritation of the neck of the bladder and inflamation of the kidneys, ulceration of the kidneys and bladder, retention of the urine, gravel, milky discharges, and for enfeebled and delicate constitutions of both sexes, attended with loss of memory, indisposition, weak nerves, trembling, pain in the back, hot hands, dryness of the skin, and a host of other symptoms. Used by persons from the ages of eighteen to twenty-five, and from thirty-five to fifty five, or in the decline or change of life: after confinement or labor pains; bed wetting in children.

B

Helmbold's Extract Buchu is Diuretic and blood purifying, and cures diseases arising from dissipation, excess and imprudences in life, impurities of the blood, etc., supersedes copaiby in affections in which it is used, and syphilic affections—in these affections used in connection with Helmbold's rose wash.

Ladies, In many affections peculiar to ladies, the buchu is unequaled by any other remedy—as in chlorosis, irregularity, ulcerated state of the uterus, leucorrhœa or whites sterility, and for all complaints incident to the sex, whether arising from indiscretion or dissipation. It is prescribed by physicians and midwives for the enfeebled and delicate constitutions of both sexes, and all ages.

O

H. T. HELMBOLD'S EXTRACT BUCHU cures diseases arising from imprudences habits of dissipation, etc. in all their stages, at little expense, little or no change in diet, no inconvenience, and no exposure. It causes a frequent desire, and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, so frequent in this class of diseases.

Use Helmbold's Extract Buchu for all affections and diseases of the urinary organs, whether existing in male or female, from whatever cause originating and no matter how long standing. Price $1,50 cents per bottle.

L

HELMBOLD'S IMPROVED ROSE WASH cannot be surpassed as a face wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, indurations of the cutaneous membrane, etc., dispels redness and incipient inflamation, hives rash, moth patches, dryness of the scalp or skin, frost bites, and all purposes for which salves and ointments are used. It is an excellent Lotion for diseases of a syphilitic nature, and as an injection for diseases of the urinary organs, arising from habits of dissipation, used in connection with the extracts Buchu, Sarsaparilla, and Catawba Grape Pills, it in such diseases as recommended cannot be surpassed. Price $1 per bottle.

D

Full and explicit directions accompanying the medicines. Evidence of the most responsible and reliable character furnished on application, with hundreds of thousands of living witnesses, and upward of 30,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent physicians, clergymen, statesmen, etc. The proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as standard preparations, and do not need to be propped up by certificates.

H. T. Helmbold's Genuine Preparations.

Delivered to any address. Secure from observation. Established upward of twenty years. Sold by druggists everywhere. Address letters for information in confidence to Henry T. Helmbold, Druggist and Chemist.

Only depots: H. M. Helmbold's Drug and Chemical Warehouse, No. 594 Broadway, N. Y. or to H. T. Helmbold's Medical depot, 101 South Tenth st. Philadelphia, Pa.

Beware of counterfeits! Ask for Henry T. Helmbold's. Take no other. 381-1y
